

Seesaw Class App

Parents: You are currently enrolled in the **Seesaw Family App**. Here, you can see student work that is posted and receive an “email notification” from your child’s teacher or support staff via Seesaw. However, from the family app, one cannot find activities or assignments.

Students: Please use the iPads that were sent home for assignments and completing Activities. Click here to [see “how to” find Activities and Classes](#). Students have the **Seesaw Class: The Learning Journal App** already installed and signed in on their device. If students get logged out tap “[I’m a Student](#)” then tap “[Sign in With Google](#)”

- **Kindergarten Students and Parents**, if you want to use Seesaw while you are at home do the following:
 - **Seesaw Class App**- Download it onto a device. Tap, [I'm a student](#), then tap [sign in with Google](#), then put in your child’s [district email](#) (ends with @d3o.me) [and password](#) (the 4 numbers given to them) to sign in.
 - **On a laptop**- Go to your browser (Chrome, Safari, Firefox) and go to web.seesaw.me. Tap, [I'm a student](#), then tap [sign in with Google](#), then put in your child’s [district email and password](#) to sign in.

See below for an example activity once you are logged into
Seesaw Class: The Learning Journal.

Seesaw Class Learning Journal App:

Below are the instructions for posting if the **activity includes a template**. Tap the **lightbulb**, then tap the green **+ add response button** in the activity.

Then tap the **“T” for text, Microphone for Recording, the Drawing Tool, 3 Dots (for shapes and backgrounds), or the Camera** to complete your work. Tap the **next slide to the right** to continue your work until you are done. Tap **Draft** if you aren't done.

When you are ready to submit your work when it's complete, tap the **green check mark** in the upper right hand corner **once and then one more time** to post/submit it to the activity.

If you need instructions to use the other Seesaw tools or to toggle between classes, please refer back to these Seesaw directions that may help you out. [Click here for those directions.](#)
